Ein Ausflug in der Nacht

„Heute Nacht machen wir einen Ausflug“,
 sagt Leas Opa.
 Die Kinder können das Abenteuer kaum erwarten.
 Ole und Lea freuen sich.
 Sie nehmen ihre neuen Taschenlampen mit.
 Als es finster wird, gehen alle los.
 Das Licht der Lampen scheint
 auf den feuchten Waldweg.
 Da! Ein Schatten bewegt sich.
 Er schwebt dicht über dem Boden.
 „Das war eine Schleiereule“, sagt Opa.

Alle sind ganz leise und beobachten die Eule.
 Lautlos gleitet die Schleiereule heran.
 Die Kinder erkennen deutlich das helle Gesicht.
 Die Eule schwebt dicht über dem Boden
 und sucht nach Beute.
 Mit den Krallen will sie zugreifen.
 Doch die kleine Maus huscht schnell in ein Loch.

Eulen ruhen am Tag, weil sie kein Licht mögen.
 In der Nacht gehen sie auf die Jagd.
 Sie leben in Scheunen oder Ställen.
 Eulen haben gute Augen und ein feines Gehör.
